VENEREAL DISEASES ATTENDANTS

BEFORE and during the War a large number of men received an excellent training as attendants in naval and military wards for the treatment of venereal diseases. Many of these men are now, unfortunately, out of work, and we have the permission of the following to publish their names as desirous of employment in venereal diseases treatment centres. We hope in this way to be of service both to some of these men and to treatment centres which are searching for suitable attendants, but our publication of these names implies no guarantee of their quality. In the event of any of the men named below being engaged by treatment centres we trust that we may be informed of the fact, in order that the names may be removed from the list.

BALDWIN, T. D., 94, Mannington Road, Leytonstone, E. 11.

Served in Military Hospital, Rochester Row, from 1907 to 1910, and in Pathological Laboratory, R.A.M. College, from 1916 to 1921. Qualified R.A.M.C. dispenser and clerk. Prefers south-eastern counties. Requires a minimum of £4 per week.
